Five hundred Norwegians and Swedes from Illinois and Wisconsin who emigrated to this country many years ago have left for their native land. This is the second detachment of the same number. They are mostly farmers of the wealthier classes.

It is still exceedingly dry in some parts of the South. At Americus, Ga, there has not been a good rain for 133 days and the results are becoming alarming. People are obliged to haul water for miles and it has been impos-sible to put in fall crops.

The grand cantilever bridge across the Niagara river, which has been at last completed, is another great scientific achievement of the age, and its construction ranks next to that of the Brooklyn bridge in importance. Spanning a great five hundred feet chasm, it is the finest bridge of the kind in the country, and was built in a shorter space (seven months) of time than any similar bridge on record.

A story is published in Chicago, in an apparently authentic form, to the effect that the body of Abraham Lincoln has been secretly removed from the sarcophagus at Springfield to p event the possibility of any forther attempt by grave-robbers. The story runs to the effect that the removal was made within a few days after the attempted desecration of the grave a few years ago; that the body was placed in a lead-lined, air-tight cedar casket, and placed in another portion of the monument, and that its location is known only to a few immediate friends of the family.

The two highest salaried governors of the states are those of New York and Pennsylvania, who receive \$10,000 a year each. The next highest are those of California, Nevada and Illinois who get \$6000 each. The governors of Colorado, Indiana, Kentucky, Missouri, New Jersey, Virginia and Wisconsin are paid \$5000 each. Jersey, Virginia and Wisconsin are paid \$5000 each. Most of the other governors are paid from \$1500 to \$4000, which latter figure is the pay allowed by the great state of Ohio. Most of the southern states pay \$3000 and \$4000. The lowest salaries paid are to the governors of Vermont, New Hampshire, Rhode Island and Michigan who receive but \$1000 each.

Laconia, N. H., has been the scene of three horribs murders. One Salmon, an Englishman, who had been boarding with a Mr. Ford. arranged with a man named Ruddy, living in the vicinity, to beard him. Saturday night he went to Ruddy's, wheeling his trunk which he took upstairs. Soon after four o'clock Sunday morning neighbors were aroused by a woman's screams and found Mrs. Ruddy lying in front of the house bleeding and unable to rise. The house was on fire, but this was soon extinguished and the bodies of Ruddy and a small child were found on the kitchen floor. The Connecticut house of representatives, with 249 members, has only nine lawyers, and the wild legislature, with 273 members, has only 12. The number of lawyers is small beyond precedent.

Charitable ladies in New York have specialties. One lady seeks out bandy-legged and knock-kneed youngsters of impoverished parentage and maintains them while their limbs are being straightened.

Table Talk.

Every lady who presides at a table is interested to know how she can depend upon having things come upon the table as she would like them. How often are remarks like this made: "This is just my fate; when I especially want a nice thing, somehow or other, it turns out poor!"

A lady expects company for tea. She orders, for instance, biscuits, and they are brought to the table heavy and indigestible. How many housekeepers can testify to mortification, as well as disapointment, under such circumstances! It may not, however, have occurred to them that it is not always the "cook's fault." Your biscuits, cakes, pot-pies, puddings, etc., cannot be raised with earth or worthless substitutes, and it becomes your own fault when you permit any baking powder to come into your kitchen about which you know absolutely nothing as to its purity or healthfulness.

The market is flooded with "low-priced" baking powders, gotten up to make an unjust profit by unscrupulous manufacturers and dealers, and it is worthy the attention of all housekeepers to note there is at least one brand of baking powder distinctly sold upon its merits, and which can be relied upon for uniform strength and purity. The fact that good health, strong muscles and sound nerves are attainable should encourage every invalid to an earnest endeavor in the right direction. Remember all disease owes its origin more or less to a lack of iron in the blood. Iron in the blood means health, strength and vigor. Analyze the blood of an invalid and little or no iron can be found. Healthy men's blood is full of iron. The best method of supplying this lack of iron is by using Brown's Iron Bitters, a sure cure for dyspepsia, general debility, weakness and all wasting diseases.

DR. J. P. NEWMAN, Toccoa City, Ga., says "Brown's Iron Bitters are very popular and their use always results satisfactorily." DR JAS B. MILLS. Saltmarsh, Ala., says:
